And Note: Quiz 4 runs for 13 days instead of 6 due to Reading Week. Note that Quiz 6 is timed differently than the others (still 6 days).

See the *Quiz Info* document for further information about the quizzes.

Also Note: Quizzes in OWL do not work properly if you have multiple browser windows/tabs open. When you take a quiz you **must** have only one browser window open, with only one tab open in that window. Also, quizzes **should not be done on a phone!** and may not work well on a tablet, either.
