

who, where  
↓  
The US government should  
↓ how  
build more nuclear power plant  
when → in the next 10 yrs to protect ← why.  
the environment.

argument:

1. longer service term
2. clean => low-carbon energy source, smallest carbon footprints.
3. smaller land capacity than other clean energy. e.g. wind mill
4. reuseable, renewable. 可再生资源
5. High power density
6. Creates Jobs.

counter-arguments:

1. expensive in the construction.
  2. overcapacity in power generation (For US.)
  3. accident { Three Miles Island  
Chernobyl  
Fukushima.
4. Staff training.
