GROUP TEMPLATE
Reading Summary and Questions and Answers

Rules – please note these carefully:
- Submission filename MUST be: **"Group"<id>_"Chapter" (or reading) <id>   (e.g., Group 3_Chapter 2)**
- This template is similar in style to the Individual template.
  - However, there is a new section (Part 3) on capturing concepts, entities, relationships, etc., which would be handy for creating a domain model.
- Group deliberates over the Individual Templates from the group members and creates a Group Template that is the shared view of the group members. Source material can be from one or more Individual Templates, adapted, or entirely newly created by the group.
- Pay particular attention to the "Comment" section as this records the group's thinking.
- **Submission to be done on OWL as announced.**
- Group Template will be assessed.

Part 1: Summary

<table>
<tr><td colspan="1" align="center">**Group No:**</td></tr>
<tr><td>**List here the Group Members actually present in the class (absentees will be penalised):**
Group Member Name:
Group Member Name:
Group Member Name:
Group Member Name:
Group Member Name:</td></tr>
<tr><td>Please write the **full reference** of the reading in the WHITE box below.
    ○ Chapter #, Chapter title (or article title if appropriate).
    ○ Book title
    ○ Author(s)
    ○ Publisher
    ○ Book edition, Year of publication
(Example shown below; overwrite on that space.)</td></tr>
<tr><td>Chapter 7 – Requirements elicitation
Software Requirements
Wiegers and Beatty
Microsoft
3rd Ed., 2013</td></tr>
<tr><td>Please write in the WHITE box below an abstract of the reading in **50-75 words**.</td></tr>
<tr><td>*Abstract*:_____
_____
_____</td></tr>
</table>

Part 2: Questions, Answers and Comments

<table>
<tr><td>Please create **ONE** important **Question-Answer-Comment set** as agreed by the **group** from the given reading.
    • Source can be from Individual Templates or completely new.
    • The key is in discussing the individual templates and agreeing upon a shared view by the group. Prioritise what your group considers as a key issue to put forward.</td></tr>
<tr><td style="background:black"> </td></tr>
<tr><td>For staff use only:
_____
_____</td></tr>
<tr><td>**QUESTION** (state your question such that the answer is what you captured from the source):

ANSWER (as-is): *<Select one*: Hardcopy/ebook><Location in the book> ....</td></tr>
</table>

YOUR COMMENT (also include where possible: an *example*, citation, justification, etc. -- to support your comment):

_____
_____
_____

Part 3: Elements of the Architectural Domain Model

Please list below, in bullet point form, ideas that capture noteworthy information regarding artefacts, operations, conditions, relationships (e.g., produced-by, used-in, acts-on, etc.) from the assigned reading (and possible other sources – identify these). This could then be a source of information for creating your domain model.
